

Continued- THE LAY OF THE LAND

No attempt has been made to list all surnames of those persons who owned these properties. Those listed may help you identify properties where these people lived.

To those whose properties have not been mentioned in these three books, I express my regret. This project of recording material for these books is a volunteer effort and energy resources are running out.

After reading the material in these volumes, hopefully people who wish to add their story will contact THE GREY COUNTY ARCHIVES where these books will be stored.
